Experience - 3+ years

Swiftsoft Infotech Services – Hyderabad, India (Remote)

DevOps Engineer

Sept 2023 – Present

- Managed production Docker environments, implementing multi-stage builds that reduced container image sizes by 50% and improved security.
- Architected and deployed scalable cloud environments using Terraform, ensuring environment parity and reducing manual provisioning time by 40%.
- Configured Nginx reverse proxies and load balancers to manage traffic distribution, achieving 99.9% application uptime during peak loads.
- Enforced IAM best practices and secret management protocols, achieving 100% compliance with internal security policies.

Skylex Technologies – Pune, India

Software Engineer (DevOps Engineer)

Oct 2022 – Sept 2023

- Managed core AWS services including EC2, S3, and VPC, optimizing resource allocation to reduce monthly cloud infrastructure costs by 15%.
- Performed regular security patching and log analysis across 20+ Linux servers, maintaining zero security breaches during tenure.
- Partnered with 10+ developers in an Agile environment to troubleshoot deployment failures, reducing deployment-related tickets by 25%.

DarkCode – Pune, India

Project Manager (Intern)

Jun 2021 – Jan 2022

- Successfully gathered and documented client needs, developed detailed roadmaps, and collaborated with developers to deliver over 10 business-ready web applications, enhancing client satisfaction by 30%.

Projects

Production-Grade Self-Hosted Infrastructure | <https://dash.atharv.one>

- Microservices Orchestration:** Architected a centralized container management system, ensuring zero data loss during rolling updates via strict volume policies.
- Resource Optimization:** Optimized GenAI workloads using kernel-level resource limits to prevent contention and maintain **100%** system stability under load.
- Network Security:** Implemented a Zero Trust architecture for the atharv.one domain using Cloudflare Tunnels behind Nginx Proxy Manager, securing internal services with SSL/TLS without exposing public firewall ports.
- Workflow Automation:** Designed complex automation pipelines using n8n to integrate disparate services, automate maintenance tasks, and handle system alerts via webhooks.

Skills

Languages: Python, C/C++, Java.

Technologies/Tools: AWS, Docker, Kubernetes, CI/CD, Git, GitHub, GCP (Google Cloud Platform), ArgoCD, Ansible, AWS Cloud Services, Jenkins, Jira, Terraform, Scripting, Grafana, Linux, MongoDB, Windows.

Soft Skills: Communication, Leadership, Stakeholder management, Adaptability, Time Management, Problem Solving, Teamwork, Creativity

Education

Welingkar Institute of Management Development and Research – Mumbai, India

MBA (IT Project Management) - Distance Learning

Dec 2023 – Jan 2026

- Coursework:** IT Project Management, Agile & Scrum, SDLC, Risk & Quality Management, Business Analysis, MIS, Product & Strategic Management.
- CGPA:** 9.1

Bharati Vidyapeeth (IMED) – Pune, India

Bachelor of Computer Applications

Aug 2019 – June 2022

- Coursework:** Data Structures, DBMS, Operating Systems, Computer Networks, Software Engineering, Web Technologies.
- CGPA:** 8.4

Certifications

- DevOps Foundations: Site Reliability Engineering
- Docker Essentials: A Developer Introduction
- AI For Everyone: DeepLearning.AI
